EMMANUEL NWOBODO

Web Developer & AI Automation Specialist

Email: emmyflames48@gmail.com | Phone: +234 701 647 9713 | Location: Enugu, Nigeria · Open to remote opportunities | Portfolio: https://portfolio-ten-ochre-28.vercel.app/ | GitHub: https://github.com/Flames488 | LinkedIn: https://www.linkedin.com/in/emmanuel-nwobodo-65b30123a

PROFESSIONAL SUMMARY

Web developer and AI automation specialist with 5+ years of experience building and deploying web applications, SaaS products, and workflow automation. Focused on turning operational problems into practical software—from healthcare management and WhatsApp-based workflows to customer-facing web experiences. Experienced across frontend and backend development, API integrations, payments, databases, and deployment.

TECHNICAL SKILLS

Web development: React, JavaScript, HTML, CSS, responsive interfaces

Backend & APIs: Python, FastAPI, REST APIs, webhooks, third-party integrations

Data & infrastructure: PostgreSQL, Supabase, Redis, Docker, deployment and maintenance

Automation & payments: AI-assisted workflows, WhatsApp automation, Paystack integrations

EXPERIENCE

Independent Web Developer & AI Automation Specialist | *2019 – Present*

• Design, build, and maintain responsive websites and web applications tailored to business workflows.

• Develop backend services and API integrations for product features, payments, notifications, and automation.

• Build and iterate on SaaS products, including healthcare-management and WhatsApp-automation systems.

• Handle deployment, troubleshooting, performance improvements, and ongoing product updates.

• Translate business needs into scoped technical solutions, with attention to usability and maintainability.
